-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Rejections Withdrawn***

1. Claims 27-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dunn (3505140) in view of Jones (3153868) made in the last Office Action has been withdrawn in view of the amendment filed on 6/30/2006.

### ***Response to Arguments***

2. Applicant's arguments with respect to claims 27-29 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 27-29 are rejected under 35 U.S.C. 102(b) as being anticipated by McVoy (3827726).

McVoy relates to a lamination product (figure-2) comprising a substrate (10) having pressure sensitive adhesive (PSA) (10a) material on one side, the PSA being provided in a first portion and a second portion (the adhesive first portion is located under the release liner and the second adhesive portion is located at the edge portion 16), a release material (12) covering a first portion of the one side and exposing a second

Art Unit: 1772

adhesive portion (16) of the one side. A transparent laminate (14) is secured to the substrate at the exposed second portion (16) of the one side, a portion of the laminate covering the first portion of the substrate and not being adhered to the substrate due to the release material. The release sheet material is folded (figure-2, a corner of the release material is shown as folded) to expose the second portion.

As shown in figure-3, a document (18) can be secured in the lamination product by lifting the unadhered portion of the laminate, placing the document between the laminate and the

substrate, removing the release material to expose the pressure sensitive adhesive material on the first portion of the substrate, and pressing the document and laminate against the exposed adhesive material of the first portion.

For claim 28, the document (18) is smaller than the first portion of the substrate so that the laminate is secured to the substrate around all outer edges of the document.

Regarding the method steps of claim 29, placing the document between the laminate and the substrate, removing the release material, and pressing the document and the laminate against the adhesive of the first portion.

### ***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1772

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
